more about me.

EXECUTIVE SUMMARY

I am a software developer in the early stages of my career. I possess the technical expertise to contribute effectively to projects utilizing a wide range of technologies, including PowerApps, Automation Anywhere, HTML, CSS, SCSS, JavaScript, React, Git, GitHub, REST API, C, C++, C#, SQL, Jira, Trello, Linux and the Microsoft Suite. The learning process was facilitated by a RPA Internship and online courses like The Odin Project, FreeCodeCamp, Udemy, CS50, MDN, Mosh Courses and other official resources.

I consider myself a stress-resistant person and someone who finds pleasure to understand and solve increasingly complex problems. Currently I study at the Technical University of Cluj-Napoca and I am developing my German and improving my English language skills.

EDUCATIONAL BACKGROUND

Technical University of Cluj Napoca

10/2023 - Current

Master's Degree in Computer Science Complements (CSC)

Private Mentoring with Marian Ionescu

01/2023 - 03/2023

Marian Ionescu – Co-founder & CTO at BeeFast.ro and GoldieLab

This mentorship experience significantly contributed to my professional growth, equipping me with the knowledge and skills to excel in web app development and architectural design.

Front-End Web Development

01/2022 - 05/2022

Informal School of IT - Cluj-Napoca

I learned advanced notions of HTML, CSS, JavaScript and about frameworks like React, as well as about Git, Github, SPA and Responsive Websites from the front-end development course.

WORK EXPERIENCE

RPA Developer Internship

07/2023 - 09/2023

Automatify

As an RPA Developer Intern at Automatify, I actively contributed to the design and development of Robotic Process Automation solutions, collaborating with senior developers and gaining hands-on experience in process automation and workflow design.

On my personal website you can find several created and updated projects or projects in progress.

COURSES

JavaScript Algorithms and Data Structures Masterclass - Udemy (Colt Steele)

Algorithms and Data Structures Challenges – Edabit, pbinfo

Responsive Web Design Certification – freeCodeCamp

Front-end Foundations - The Odin Project

I learned HTML, CSS, JavaScript, Command Line Basics, GitHub, GIT.

Introduction to Computer Science - HarvardX CS50 (2020)

I learned C, HTML and CSS, the basics of machine learning, algorithms and structured data.
