EXECUTIVE SUMMARY

I am a self-taught software developer at the beginning of the journey. I can work in projects which use technologies such as: Git, HTML, CSS, SASS, JavaScript, ReactJS, API, C++. For the learning process I used online courses like The Odin Project, FreeCodeCamp, Udemy, CS50 and other official resources.

What am i working on now:

- I am working on a complex project named "Your Specialist" that is published on my github profile.
- I'm looking for a job to apply my knowledge and I am continuously preparing for this.
- At the same time, I am practicing for admission to the mathematics-informatics faculty.

I consider myself a stress-resistant person and someone who finds pleasure to understand and solve increasingly complex problems.
Currently I am developing my German and improving my English language skills.

WORK EXPERIENCE

YourSpecialist-Project - one platform that helps patients to access information about the medical staff in their area. Technology: HTML, CSS, SCSS, ReactJS.

Other projects such as websites or games.

ACADEMIC BACKGROUND

FRONT-END WEB DEVELOPMENT

01/2022 – 05/2022

Informal School of IT - Cluj-Napoca
