EXECUTIVE SUMMARY

I am a self-taught software developer at the beginning of my career. I can use my technical know-how to work in projects which use technologies such as: Git, HTML, CSS, SCSS, JavaScript, React, TypeScript, NodeJS, REST API, C++, C, MySQL, UiPath.
I used online courses like The Odin Project, FreeCodeCamp, Udemy, CS50 and other official resources as a learning base.
I consider myself a stress-resistant person and someone who finds pleasure in understanding and solving complex problems.
Currently I am developing my German and improving my English language skills.

WORK EXPERIENCE

Personal Project – YourSpecialist - one platform that helps patients to access information about the medical staff in their area. Technology used: HTML, CSS, SCSS, JavaScript, React.
Personal Project – BestPriceRobot - A robot that scraps information about the most purchased products on a platform and indexes the information separately in a new Excel. Technology used: UiPath.
On my personal website I present several created and updated projects or projects in progress.
